• Adaptable

PERSONAL DETAILS

Date of Birth: 31 March 2004

Language: English, Hindi

Address: New Delhi-86, Delhi

PROFILE

Passionate Frontend Developer with expertise in HTML, CSS, Bootstrap, JavaScript, jQuery, PHP, and MySQL. Experienced in building responsive and dynamic web applications. Seeking an opportunity to apply my skills in a challenging environment and contribute to innovative projects.

WORK EXPERIENCE

Netflix UI(Clone)

2024

- I created a Netflix clone using HTML and CSS to replicate the user interface of the popular streaming platform.
- The project includes a responsive homepage with a navigation bar, a hero section with a featured movie, and a grid layout showcasing different movie categories.
- The design closely follows Netflix's dark-themed UI with hover effects and smooth transitions. While this version is static.

2D Animation

2025

- I created a WordPress website called "2D Animation" to showcase and educate users about 2D animation techniques. The website includes four different pages, each designed with a user-friendly interface and engaging content.
- Includes informative articles on animation techniques, tools, and industry trends.

Carbucket

November 2024

Car Rent Website

- Converted a static website into a fully dynamic web application using PHP and MySQL.
- Implemented an admin panel for content management, allowing easy updates without modifying the code.
